Education

Cairo University

Bachelor of Science in Computer Engineering

CGPA: 3.86

May 2016, Giza, Egypt

Experience

Hadoop Developer

Braindatawire

Full-time - On-site

2016 - 2017

- Involved in deploying the Rplus Demand Sense product for customers, gathering requirements, and optimizing backend algorithms.
- Loaded and transformed large structured and semi-structured datasets.
- Managed data coming from different sources and applications.
- Supported MapReduce programs running on the cluster.
- Created Hive tables, loaded data, and developed Hive queries optimized for internal MapReduce execution.

Skills

Programming: Core Java - Scala - MapReduce

Big Data Tools: HDFS - Spark - MapReduce - Sqoop - Hive - Hbase - Hadoop Distributed File System

Database: MySQL - Oracle

Scripting: Shell Scripting

IDE: Eclipse

Operating Systems: Linux (CentOS) - Windows

Source Control: Git (Github)
