Education

M.Tech (IT-DBS), B.Tech (CSE)

SRM University

Sep 2010 - Jun 2016, Chennai, India

Experience

Software Engineer

Full-time - On-Site

Technosoft Corporation (for Citi Bank)

Sep 2016 - Present

- Project: Anti-Money Laundering (AML) Transaction Monitoring (TM) program
- Built and provided domain knowledge for Anti-Money Laundering among team members.
- Designed the layered architecture with Data Warehouse and Workspace layers for Business Analysts.
- Actively involved in designing a star-schema model involving various Dimensions and Fact tables.
- Designed SCD2 for maintaining history of the DIM data.
- Developed Hive Queries for mapping data between different layers of architecture, and its usage in Oozie Workflows.
- Integrated with Data Quality and Reconciliation Module.
- Performed Regression and Integration testing of solutions for issues in integration with other modules and effectively tested the data flow from layer-to-layer.
- Developed transaction monitoring systems to generate alerts for suspicious and fraudulent transactions based on business requirements.
- Developed Spark Jobs for various business rules.
- Learning Machine Learning for developing an effective model for Fraud detection in Anti-Money Laundering system.
- Scheduled Jobs using Autosys tool.
- Managed Deployment and Code using RTC and RLM (Release Lifecycle Management).

Software Engineer

Full-time - On-Site

Technosoft Corporation (for Larsen and Toubro)

Aug 2015 - Sep 2016

- Responsible for software engineering tasks and development projects.

Hadoop Developer

Full-time - On-Site

Technosoft Corporation (for Alcatel-Lucent)

Jan 2014 - Jul 2015

- Project: PRTS - RAN (Radio Access Network) for maintaining and storing operational and parameters data from multiple vendor networks into OMS data store.
- Worked with Hadoop Distributed File System.
- Involved in importing data from MySQL to HDFS using SQOOP.
- Involved in creating Hive tables, loading with data and writing Hive queries which ran on top of Tez execution Engine.
- Involved in preparing Test cases Document.
- Involved in integrating Hive and HBase to store the operational data.
- Monitored the Jobs through Oozie.

Skills

Big Data Ecosystems: Hadoop-HDFS, MapReduce, Hive, Pig, Sqoop, HBase, Oozie, Spark, Pyspark, HUE, Cassandra, Tez, Hortonworks HDP2.3, Cloudera 5.9.14

Programming Languages: Python, Core Java, Scala (familiarity)

Databases: Oracle 10g, MySQL, SQL Server, NoSQL (HBase, Cassandra), Teradata

Tools & Technologies: Eclipse, Toad, FTP, Tectia, Putty, Autosys, Anaconda, Jupyter Notebook, DevOps (RTC, RLM), Tableau, ETL Framework

Scripting Languages: JSP

Platforms: Windows, Unix
