Experience

Hadoop Developer

Full-time

Braindatawire

2016 - 2017, Cairo, Egypt

- Developed and deployed Rplus's cloud-based solution, Demand Sense, for accurate product demand prediction by combining enterprise and external data, leveraging social conversations and sentiments.
- Involved in deploying the product for customers, gathering requirements, and optimizing algorithms at the backend of the product.
- Loaded and transformed large structured and semi-structured datasets effectively.
- Responsible for managing data coming from different sources and applications.
- Supported MapReduce programs running on the cluster, ensuring efficient data processing.
- Created Hive tables, loaded data, and wrote Hive queries that executed internally via MapReduce.

Skills

Programming: Core Java, Scala, Map Reduce

Big Data Tools: Hadoop, HDFS, Spark, Sqoop, Hive, Hbase

Database: MySQL, Oracle

Scripting: Shell Scripting

IDE: Eclipse

Operating Systems: Linux (CentOS), Windows

Source Control: Git (Github)
