Education

Nanded University

BCA Nanded, Maharashtra

Experience

ETL Developer

Full-time - On-Site

Sun Trust Bank NY

JAN 2018 - Present

- Liaised closely with Project Manager, Business Analysts, Product Architects, and Requirements Modelers (CFOC) to define Technical requirements and create project documentation.
- Developed using Informatica 9.1, Oracle 11g, and UNIX.
- Utilized Informatica PowerCenter for extraction, transformation, and loading (ETL) of data into the Database.
- Created and configured Sessions in Informatica workflow Manager for loading data into Database tables from various heterogeneous database sources like Flat Files and Oracle.
- Performed unit testing and system integration testing of the developed mappings.
- Provided production support for the deployed code.
- Provided solutions to the business for production issues.
- Interacted directly with the client throughout the project and in daily meetings.

Projects

Data Warehouse Development (Marshall Multimedia)

JUN 2016 - DEC 2017

- Developed mappings using different sources by utilizing Informatica transformations.
- Created and configured Sessions in Informatica workflow Manager for loading data into Data Mart tables from various heterogeneous database sources like Flat Files and Oracle.
- Performed unit testing and system integration testing of the developed mappings.
- Provided solutions to the business for production issues.

ACT BI - State Datamart (Assurant Healthcare/Insurance)

NOV 2015 - MAY 2016

- Performed small enhancements to the system.
- Conducted daily load monitoring.
- Attended to Informatica job failures by analyzing the root cause and resolving them using standard documented processes.
- Gained experience in writing efficient SQL statements.
- Demonstrated strong Problem Analysis & Resolution skills and ability to work in Multi-Platform Environments.
- Scheduled Informatica jobs using the Informatica scheduler.
- Extensively used ETL methodology for developing and supporting data extraction, transformations, and loading processes within a corporate-wide ETL Solution using Informatica.
- Involved in creating Unit cases and uploading them to Quality Center for Unit Testing and UTR.
- Ensured that daily support tasks were done in accordance with the defined SLA.

Certificates

Concepts in Data Warehousing, Business Intelligence, ETL

BI Tools - Informatica 9X

Skills

Databases: Oracle 11g

Domains: Investment Banking - Advertising - Insurance

Programming Languages: SQL - PLSQL

BI Tools: Informatica 9.1

Operating Systems: Windows - Unix

ETL Technologies: Informatica - Extract, Transform, and Load (ETL)
