Education

Mumbai University

Bachelor of Engineering, EXTC

January 2015, Mumbai, Maharashtra

Fr. Agnel Polytechnic

Diploma Industrial Electronics

January 2012, Vashi, Maharashtra, India

Experience

ETL Developer

On-Site

Blue Shield of California

Mar 2016 - Sept 2017

- Processed feeds related to eligibility, enrollment, and claims using Informatica 9.6.1, Oracle 11g, Facets 5.0 & Tidal for a health plan provider.
- Responsible for analyzing business requirement documents to inform development.
- Developed Informatica mappings utilizing transformations such as source qualifier, expression, filter, router, joiner, union, aggregator, normalizer, sorter, and lookup, along with corresponding sessions and workflows.
- Utilized Informatica Debugger extensively for mapping problem identification and troubleshooting existing bugs.
- Wrote Unix Scripts & SQL statements to meet business requirements.
- Performed impact analysis for change requests and managed their development.
- Conducted data fabrication using Facets screens and SQL statements within the membership domain.
- Executed unit testing and troubleshooting using Informatica debugger and SQL queries; prepared comprehensive Unit Test Cases.
- Authored documentation for design, unit testing, and impact analysis.

Awards & Honors

Received Kudos Award at Syntel for error-free work, commitment to learning, client appreciation, and outstanding display of Syntel values.

Received appreciation from Management for outstanding performance throughout tenure.

Received spot recognition for automation implemented in project.

Skills

ETL Tools: Informatica PowerCenter 9.6.1 (3 years experience)

Databases: Oracle 11g, SQL, PL/SQL

Operating Systems: UNIX

Tools & Technologies: Facets 5.0, Tidal, JIRA, Putty
